New Orleans recording artist Wes Raymond presents a diverse collection of songs about love and life situations from a personal and world perspective. 12 MP3 Songs URBAN/R&B: Soul, URBAN/R&B: R&B Pop Crossover Details: A "feel good" CD with a little bit of everything for the smooth jazz/R&B/urban contemporary aficionado. There is a soulful, moving version of "End Of The Road" that does justice to the Ken "Babyface" Edmunds composition that was a breakout hit for Boyz 2 Men in the mid-90's. Raymond's treatment of Sly Stone's "If You Want Me 2 Stay" features some of the best vocals and horn work I've heard in a while. This CD is a solid piece of work. - Dean M. Shapiro OffBeat Magazine
