I've bundled these ten quick and easy steps for you into a product called How To Master Web Graphics In 10 Easy Steps: This product comes in the form of eleven very detailed and in depth coaching videos coming to a total of ninety-eight minutes. Here's a quick run down of each of those videos, complete with a mini "screen grab" of the video (in this product you'll even discover an easy way to create your own screen grabs to add to your sites and ebooks):

Video One (3 Minutes) In this video I'll reveal where to download one of the most powerful and 100 free image editors available.

Video Two (25 Minutes) Here you'll discover probably the most important thing of all when dealing with web graphics: The three main graphic formats, how to convert between them, and why choosing the right graphic format can boost your online sales.

Video Three (9 Minutes) In this video I'll show you how, why and when to "crop" your graphics to make them look even better than they already do!

Video Four (3 Minutes) Here I'll show you how to rotate and flip your graphics just like I've done with the graphic on the left.

Video Five (11 Minutes) In this video I'll show you the easy way to make your graphics bigger or smaller whenever you want. This is the same powerful tactic I've used with these video screen grabs to make them fit nicely on this page.

Video Six (12 Minutes) Here I talk you through why the "color count" of your graphics is so important, and how and why to higher or lower your color count from time to time.

Video Seven (9 Minutes) In this video I'll show you how to quickly and easily apply amazing effects to your graphics to help you stand out even more on the internet.

Video Eight (8 Minutes) Here I'll show you probably the easiest way to take "screen grabs" (also known as "screen shots") of what's happening on your screen ... if you create any kind of tutorials, sales pages, or ebooks you'll find this technique incredibly useful and surprisingly easy.

Video Nine (7 Minutes) In this video I'll show you a very easy way to add text to your graphics so you can have captions wherever you like.

Video Ten (7 Minutes) Here I'll show you a real time saver - how to do batch editing and batch conversions to graphics. I'll talk you through exactly how I automatically convert thirty graphics from one

format to another with just the click of a button. Video Eleven (4 Minutes) In this video I'll show you how to apply some great color effects to your graphics. For PC's Only - Not For Mac I must tell you that this eBook only works (to my knowledge) on PC's. If your computer is running Microsoft Windows, you won't have any trouble at all viewing this eBook successfully. However, if you're on a Mac you'll more than likely have trouble viewing it. A Great Product + Resale Rights = BIG Profits For YOU I'm sure you know there's a ton of eBook resale rights around these days. BUT - if you really want to make money selling an eBook you have rights to, you need: * A very high quality product. * An effective sales letter. * A professionally designed website with great looking graphics. Now - this eBook is brand new. Get a copy now, start promoting it immediately and you'll make the most profits. Wait a day or a week or a month, and literally more and more profits will pass you by. Now, I'm certainly not saying this to brag, but I wrote this sales copy, and my copy has sold hundreds of thousands of dollars worth of products online, if not millions of dollars worth. AND - from very affordable eBooks like this one. Don't believe me? Then search Google for "Louis Allport" and see what you find. Now, the Google index does fluctuate for many reasons. But right now (as I'm writing this), I see up to 804 websites selling my products. And what's more - when I search Yahoo I see up to 2,820 selling my products, and even more on MSN! For whatever reason, Google just gives a small sample of what's actually happening out on the web. Even if each one of those sites is selling just one copy of a \$20 eBook a week that I wrote the copy for, that adds up real quick. My copy and products have made many people a LOT of money over the past two years. They can make YOU money too - all you need to do to get started is grab a copy of this product. And just by having a copy of this product, you can sell it or present it pretty much any way you choose. You can even turn it into a physical product by putting it onto a data CD or a DVD. This would make it a good way to sell on eBay. It's totally up to you!
