It is a heady musical cocktail which contains elements of Eastern and Western cultures, instruments, orchestration and voices to produce a totally unique musical vision. Boris began playing guitar and composing at an early age and has always had a desire for his music to be truly world-wide. While working in London he began to write the melodies which have become Love Songs and sent some demos to Music Publishers including Dave Whitelock of Smoking Frog Productions. Since that time Boris has returned to Bulgaria to complete the recordings with a small group of musically gifted professionals but continued his collaboration with Smoking Frog Productions who have subsequently published the album.
