This album is a collection of many styles but if one style were to be chosen it would be considered Pop rock/ Alternative. 11 MP3 Songs POP: Today's Top 40, ROCK: Modern Rock Details: Brock Dain is an up and coming artist in San Diego with an enormous future. Those who are local to the San Diego area may remember him as the front man of the band Suddenly One who had a song called "So Will you Take me Back" that received some radio airplay in 2001. Well they broke up and now this 26 year old is bursting on to the scene with his debut solo record "A Little bit of Everything." It is a collection of Brock's greatest and most diverse songs featuring his first single "On and On." The album would probably be best described as pop rock with a little bit of an acoustic flavor. His lyrics have been termed "simple yet genius" (Steven Silke, Gaslamp Press) and his infectious hooks and choruses are sure to please. You can catch Brock Dain touring the San Diego area till the early summer of '06 where he is then scheduled to do a West Coast summer tour.
