As a young boy, Cobe was always finding a way to beat on something like a table or a couch. He loved music. A family rooted in gospel music, his father, mother and family were great influences in his development of musical talent. Cobe started his hobby of music at age 10, playing the drums for his church. Later, he then started playing the drums for the church choir. As a teenager, he went further studying music and polishing his gift as a drummer. A few years later, he was playing for local artists and national artists as they came in town. Cobe was self taught. He realized that he had a gift from God. At age 15, there was a sound from an instrument that caught his attention. It was the piano. Cobe said, "It had a sound like no other instrument." Cobe wanted to learn how to play the piano. Knowing that he already had a musical gift, Cobe was trying to play the piano, organ and synthesized keyboards. He would practice playing the piano while listening to albums every chance he got. A few months later, Cobe played his first song on his baby sister's toy organ she had got for Christmas. At age 18, Cobe was playing the organ for his church and the adult choir. Cobe became a good musician, singer, songwriter and producer. Cobe has been apart of various choirs and groups throughout the city. In 1994, Cobe was music director for the hit play "MaMa Said Make a U Turn" which was a sell out twice that year. COBE is also a member of Christian Faith Fellowship Church Milw, WI with Bishop Darrell and Pastor Pamela Hines.
