Click over to the "ANOMALIES" website page to hear MP3 samples and to find out all the details on his riddle contest! LINKS TO DAN PINTO'S OFFICIAL SITE PAGES CAN BE FOUND JUST BELOW AND TO THE LEFT. MUSICAL BACKGROUND: *****Dan Pinto's involvement in music spans back more than 30 years. In addition to his talents as a multi-instrumentalist on keyboards, drums and percussion he is a seasoned composer, producer and recording engineer. His primary instruments are keyboards and drums with piano as the base writing tool. Dan's composing styles cross several lines including Orchestral-rock, Jazz-Rock Fusion, New Age and more recently moviesound. He has had many years experience performing live as both a solo artist and band member as well as working professionally as both a live stage and studio musician on each of his primary instruments. As a composer, he releases an average of 1 to 2 albums of material per year. As a recording engineer/producer working out of his own studio, Dan takes complete control over the production of his music. *****Influences on his keyboard styles during the early years of his development had included Keith Emerson, John Williams, Chick Corea, Rick Wakeman and Lyle Mays. On drums, it's Bill Bruford, Carl Palmer, Neil Peart and Ringo Starr. General listening influences

are The Beatles, Pat Methany, The Dixie Dreggs, Renaissance, Jean Luc Ponty, Acoustic Alchemy, Pink Floyd, Emerson, Lake Palmer, The Rolling Stones, The Doors and a host of well known classical music composers. *****Dan Pinto originally began studying drums at age 11 soon after developing skills as a multi-keyboardist. He spent much of the early days of his career performing with local rock bands on both instruments in and around the New York and New Jersey area club scene. Dan's live keyboard stage experience included opening up for "Joan Jett and the Blackhearts." Dan Pinto has worked as a drummer in sessions with well known jazz bassist, Dave LaRue and actress/singer Mackenzie Phillips, daughter of John Phillips from "The Mamas and the Papas." In the late 80's and early 90's he began performing live as a solo pianist and also as an electronic multi-keyboardist using programmed MIDI sequencers for backup. Pulling back from live gigs after 1992, Dan joined BMI and focused his attention exclusively on composing. *****Among Dan's earliest writing credits are works created mostly for industrial film and television productions, some of which included A, T T; RCA; CNN and several local New Jersey cable stations. His music grabbed the attention consistently for use in Robin Leach's television series "Lifestyles of the Rich & Famous" "Runaway with the Rich & Famous" while simultaneously continuing his studio recording releasing several albums of material on his own. *****In 1995 Dan began an unusual undertaking when he started producing an idea for a film with little financial support. The motive was to compose the film soundtrack, a task that he completed after 4 years of film production. As a result, "Die For A Life" became his 4th officially released album. This was a very impressive accomplishment for a veteran composer with little experience in the field of motion picture production. While the film was a promotional only release, the music was not as the CD is available for purchase. ABOUT VISIONS: *****Dan's CD, "Visions", available here at CDBaby is some of his best compositional work to date! This CD digs deep into what Dan's music is all about demonstrating how well he's mastered the different styles that he has acquired over the years. A terrific mix of both Jazz-Rock Fusion and New Age Classical as well as great ballad melodies with the focus on piano and light orchestration. It's music that really stirs the imagination. And that's the reason why Dan's music is so right for motion pictures because it plays to the visual aspects so well. ABOUT "Dan Pinto's Official Website": *****Information and samples excerpts from other CDs that Dan has released can be heard on his official website. There's also a special page devoted to Christmas with 2 CD releases. Read about how his movie "Die For A Life" came to be with the account of how such a small idea for a short film turned into a full blown, full length feature production.

And because of the involvement he had with the World Trade Center during the filming of "Die For A Life", there is a page dedicated to the memory of the WTC with stills from the site before and after 9/11. There's interviews on Dan talking with Keith Emerson and Carl Palmer, two of the musicians who had a great influence in the early days of his career and much more. RECENT ACTIVITY FOR DAN PINTO: *****Dan Pinto's song "The Haunting" from his "Ivory Towers" CD was nominated by the JPF Music Awards for "Best Solo Instrumental Song Of The Year!" for 2006. Piano works are being put together for a solo album due for release in 2009 along with a re-edited digital remix version of his movie "Die For A Life" with a trailer to follow. He continues to work with film producers on soundtrack material as well and has recently worked with Horace Ott, World renowned composer and writer of the hit single "Don't let me be misunderstood." for a seminar on music in films for the New Jersey Movie Makers "Memfest 2006" festival. For further details, click over to "Dan Pinto's Official Website" for updates as they become available.
