EASY LISTENING: Mature, GOSPEL: Contemporary Gospel Details: Originally born into a musical family, with a folk singer father, Justin learnt to play piano from age 8. With his mother and father dancing and singing folk music, the influence to compose seemed natural. The kind transfer of the family Bechstein piano from grandfathers' house to home, family funded piano lessons- began the creation trail of many songs and melodies... Although Justie has been in the past playing and gigging with various folk dance bands- (more recently with session recordings) he has had successful seasons with a pop tribute group. Now it's time for us to hear him excel in his own right! This is a re-released and successful album 'In Your Eyes', originally selling over 500 copies. He has gone from strength to strength musically as this concept album shows. The last track is a more recent re-mix of the original 'In Your Eyes', hinting what is to come in the forthcoming album. \*\*\*\*\*NEWS UPDATE 2005\*\*\*\*\* Justie's future music plans include a new album (05/06 release) and a tour.
