Add to this mix a ballad or three, and you've got a CD that evokes memories past, yet is filled with the nervous energy of the present. A diverse collection of rock and roll, Live a Long Life captures all of Lovejoy's energy, seductively welcoming it in one instance then throwing it in your face in another. Heavier tunes like "Mad Tango" and "Ocean's Wrath" are tempered with singalongs "Round and Round" and "Century's End." Be sure to check out "The Other Side" - a slow atmospheric number which could slot perfectly into the denouement scene of any classic '80's John Hughes movie (Pretty In Pink, Breakfast Club etc..) Their image is sexy and their presence is magnetic. Lovejoy LIVE is a definite MUST-SEE. High-energy performances command crowds to stop and take a second look. Their professionalism comes across on stage in their musical precision and the effortless charm in which they capture their audiences. The musical prowess possessed by each member of the band is the strength behind solid performance and a tight sound. Powerful, seductive vocals, intense rhythms and melodies that remain etched in you mind are the ideal combination, giving Lovejoy a marketable appeal.
