This is original music for Jazz Quintet with electric guitar, trumpet, sax, upright bass, and drums. 11 MP3 Songs JAZZ: Bebop, JAZZ: Acid Jazz Details: Picture Parker and Gillespie mixing it up with Mingus, Hendrix and Zappa - with John Cage as referee. Its Challenging exploratory jazz" Matt Kendrick-Bass Jack King-Guitar Alan Neese-Trumpet Abdullah Rahman-Drums Steve Blake-Sax Acid Guitar, Bebop trumpet. The title says it all and nothing. This cd is 71minutes and explores some pretty wild terrain. "Wonder Bug" is a nice little rant. It has the acid lead guitar as does "Home Drive" "Face It" and the title track. Going Blue Crazy was a very minor hit for me. It got a fair amount of airplay. I even got royalties from it. Face It got a lot of airplay also. Face It is a psychedelic jam of bass ,drums, and guitar. Just like the old days except the bass is an acoustic one with heavy metal bowing. (Heavy wood?) If you like jazz and screaming guitar, get this one.
