emotional violin - rock/pop 13 MP3 Songs POP: Folkly Pop, ROCK: Folk Rock Details: Sarah-Jane has had 10 years stage experience with the folk duo Bardic . During this time she has enthralled their audience with her unique and strongly emotional violin sound, not only in Germany but in many other countries. Sarah-Jane is now emerging with her solo programme. Her first album "Another World", which contains 13 songs composed by the artist herself, can be experienced by the listener plus the atmospheric "alternative -violin-pop" which includes Yiddish and Spanish sounds and are enhanced by her classical musical education. (Academically music degree) The violin plays a major part in Sarah-Janes new project and is a wonderful background for her very emotional voice. Both of these elements are strongly experienced by the listener and are enhanced by the guitar and the piano accompaniment used by the artist during the composing process and played with some of her songs on stage. All in all Sarah-Janes music is music to be experienced.
