Details: Your pint has never tasted as good as it does with Seamus Stout. This upbeat Celtic group has established themselves in the North Texas area as a crowd favorite at many area festivals and pubs! These guys provide lively tunes that will keep your toes tapping, your hands clapping and a smile on your face. From the first jig to the last reel, you'll love your pint of Seamus Stout! Jan (Yon) - Fiddle, Mandolin and vocals Jarrod - Whistle, Irish Flute and vocals Cory - Acoustic Guitar and vocals Damon - Bodhran and vocals "A Pint On Us" was the first CD put out by Seamus Stout. It came out in 2001, and demonstrated the infectious energy that the lads bring to some well-known traditional Celtic tunes. Several tracks, like "Johnny Jump Up", "Whiskey In The Jar" and "Finnegan's Wake" continue to be crowd favorites that are requested at many a performance. The main idea with each of Seamus Stout's CDs is to try and capture the infectious energy of one of their live performances. These guys love Celtic music and are having a great time on stage! Toward that end, they shy away from quadruple overdubs and guest studio musicians when recording. What you love about Seamus Stout "live" is what comes across in each CD. If you have any questions about the band (upcoming CDs, recommended songs, performance dates/locations, etc.), please feel free to contact us through the email function on this page, our website (seamusstout.com) or our MySpace Music page (myspace.com/seamusstout). Thanks for your interest in Seamus Stout!
