God has reached into His warehouse of "Hard Hitting Tunes" and has handed us a musical fireworks display. 9 MP3 Songs GOSPEL: Contemporary Gospel, ROCK: Classic Rock Details: Do you like Marilyn Manson, White Zombie, NIN, or any other band in the mainstream that has sadly condoned the lie? If thats the case, you definitely dont want anything to do with this band! Pure rockin' blues, walkin' hand in hand with the "Good News"! You see, the songs on this album were actually performed live in the studio, not sampled, cut and pasted clips borrowed from someone else. The vocals on these tracks are in your face, thunderous, and free from any digital effects. The keyboards/piano were played by Michael Humphrey, a prayer warrior whose creativity, as well as chops, will make some mainstream pianists get back to practicing their instrument instead of being spokespeople for a handful of the confused. Every single drum beat reminds you of the very first time you heard the powerful "When The Levee Breaks", and the bass and lead guitarwork is funkier and chunkier than anything this side of the Jimi Hendrix Experience. The message of The Steven Brack Band is based on 100 absolute truth, a way of life that has taken a nosedive in our society like an in-flight jet that has just lost a wing. This band has harnessed pure, raw power and has taken it to the very edge of what it will do. So push play, turn your volume to 11, and let your mind and soul take a walk in an unbridled freedom that has always been sought by mankind... but rarely ever found! Romans 5:8 While we were still sinners, Christ died for us.
