Prices - Only $7 How to start your own profit-generating online business today starting from scratch Heres the definitive, step-by-step guide for developing a web business that will make your revenues soar in 2008! From: Revenue Dear Fellow Marketer, How many times have you been ripped off by some online marketers, promising you instant cash with minimal work and then failing to deliver? How many times have you wanted to make some real cash online but could not start because you lack the real knowledge that you need to start your own online business? Just three years ago, I was in your exact same position. I spent thousands of cash and wasted most of my time from these ridiculous online programs that promised to make me rich. My friends and family were all disappointed with me. They could not believe I had fallen into this kind of crap. I lost all of my savings and nothing was left for me. Just like you, I worked hard each day so that I could pay my bills. I even got two more jobs as my salary was not enough to cover all of my expenses. I felt hopeless and tired I thought I would never be able to live the life that I have always dreamed of the life that gives me the freedom from worrying about my daily expenses, my bills and payments the life that allows me to relax and work from home without anyone bossing me around the life that allows me to spend more time with my family and friends and enjoy their company. I thought this dream was impossible to happen until one day, it was by chance that I happened to stumble across the solution to my problem. The fact is ANYBODY CAN GET RICH ONLINE, INCLUDING YOU, IF YOU HAVE THE RIGHT INFORMATION at your fingertips. Thousands and thousands of people are making boatloads of cash on the internet because they have the real information about building a successful and profitable online business. Immediately after I had discovered this information, I turned on my computer and started working on the knowledge which I had just learned. Since then, my life has changed. Now, I am going to share with you this same information that turned my life around. But I must warn you It will not be easy. It will take some time and effort on your part. If you have the willingness to learn, the willingness to work, and the willingness to access the right information and resources, you CAN make money with your own online business. Developing A Profitable Online Business in 2008 video course has all the critical information and resources you need. The question is

are you ready to provide the rest of the ingredients for online profits and success? Inside this amazing video course you will find a complete collection of information you need to make money online. You are going to discover so many things on how to get started with your online business idea and build a lifetime income with your website. Heres Just Sneak-Peak At What Youll Uncover With This Amazing Video Course Video #1: Why Set Up A Web Business Some people believe that internet marketing is a scam and that you cant make serious money online. Video #1 will prove to you that this belief is TOTALLY WRONG. Thousands of people have made tons of cash online and you will learn why they have made millions on the internet. In addition, you will learn the right mindset and attitude that you should have to become a successful online business entrepeneur and what you can expect before you even start your online business. Video #2: Getting Started What separates the rich from the poor in the online world? How should you decide which products are profitable and which are just time wasters? How should you plan your business venture? These are just some of the important questions which you should ask yourself first before starting your own online business. Many marketers fail because they dont know the answers to these questions. They just go ahead without having a plan. Video #2 will answer these questions for you and will help you come up with a plan that will bring in tons of cash in your wallet. Video #3: What Do I Need Video #3 will show you what you will actually need to get your business off the ground. Get yourself familiar with some advanced technologies that you will surely encounter. Learn how to find the right webhost for you and what kind of hosting you should use. With this video, you will absolutely avoid all those mistakes that 99.99 of the marketers have made when they started their online business. Video #4: The Design Stage If youve spent many long nights imagining how your web business would look, the design stage is where we put these plans through the mixer and produce an interface. Video #3 will show you exactly the right fonts, color and layout that you should use when you create your website. Think about Youtube and Myspace. What are their secrets to their success? This video will show you just that and you will understand why you need a good web design to become successful online. Video #5: Web Standards and Guidelines Did you know that your web business is breaking the law if it fails to offer reasonable accessibility to disabled users? In fact, many online businesses have been forced to shut down just because of this. Video #3 is designed to enlighten you on just what web standards and guidelines are, why they are BENEFICIAL, and why theyre a matter of law. Video #6: Search Engine Optimization Search Engine Optimization would become one of the most important factors for a websites

development, and often the difference between success and failure in cyber terms. Search Engines play a major role in the world of online business by helping people find you online. If you can get listed on the top positions for your keywords, you will definitely be flooded with visitors. Video #4 will teach you the right way of implementing SEO on your website. Video #7: Advertising a Product What good is a website without any visitors? How many people are going to purchase a product which is advertised weakly and targeted poorly? There are many factors to consider when advertising your new product and Video #7 will teach you how to advertise effectively online to ensure that you are generating profits from your expenses. Video #8: The Evolution of Marketing on the Web When you set off on your way to creating your own web business, youll be relying on marketing prowess to draw in the customers that youre looking for. In Video #8, we will take an extensive look at the subject of web marketing, why its so important and how its changing the face of advertising in the twenty first century. You will learn how to create a viral buzz about your site and benefit from the two most trafficked sites Ebay and Myspace. You will understand why blogs and forums are in right now and why should use them on your business. Video #8 is all about generating more traffic to your site using the current technologies and Web 2.0 sites. Video #9: The Next Step Weve been through the pre-implementation stages, the design phase and even the murky waters of SEO. Advertising and marketing on the web has been discussed, and youre probably just about ready to throw your hat in the ring of E-Commerce. Theres been a lot of information to digest. But where do we take things next? Video #9 will show you how you can ensure your long term success. That is, after all, the goal of most businesses. Video #10: The Tools of the Trade When setting up your new eCommerce website you are going to need a few tools of the trade to help get you started! These are the services that I highly recommend to help save you loads of your time. While it is possible you may find less expensive solutions than these tools, I assure you that the aggravation and frustration that you will save by going with these tried-and-true services will be something youll seriously appreciate later. Its Time For You To Start Generating Lifetime Profits With Your Own Successful Online Business! Im sure you can see the power and profit potential of an online business. Are you ready to finally step into financial security and take advantage of the power of a profitable website?
