

Stream - Medium Gentle Flowing Gurgles (sound Effect Sfx)

[DOWNLOAD HERE](#)

This 60" file is a stereo sound effect of a calm brook flowing downstream. Recorded from a small distance upstream, it captures a smooth and soothing flow of water. All files on sale by Sevenleaf SFX have been recorded by professionals and are available for you to download as 16 bit 48kHz stereo wav files. Also see our other range of water recordings at different perspectives and different streams and rivers. Previews are low quality mp3 files with security watermark beeps. Purchased files are broadcast quality wavs without watermarking.
