Track Anywhere Track hits from any site you send traffic to (i.e. affiliate programs, safelists,)and / or label them to know from where you sent them. Password Protected Admin area Shows all referring URLs, Track total hits and total unique hits, All hits logged in an easy to read graphical format. Ability to edit all links you have made. Exact Time Formatting Track hits and unique hits by month, day, even down to the hour! Handles all your needs File locking to handle heavy loads of traffic, and can store an unlimited amount of created links! Flat file log can be easily downloaded via FTP for instant backup in the event of a server crash. Complete Statistics Shows ratio of unique hits to total hits. Graphically formatted to give you a complete view of every stat detail of your links. Complete Instructions Included Complete step-by-step instructions will guide you to setup in no time with only very basic editing and uploading knowledge. There are way too many reasons why you should run your own

tracking system. But let's summarize the ones we've mentioned until now. Allows you to see what advertising sources produce the most traffic. Gives you detailed stats on where and when your hits come from. Helps you Better market your products, offers and/or services Allows you to send out links using your own domain name for instant recognition, and you can name your link to reflect what it is you are offering. This allows people to know where they are going, and who they are dealing with. SERVER REQUIREMENTS: Perl 5.005 or higher on Unix compatible system. Access to a cgi-bin to store files. Ability to upload files via FTP. Right now you are probably asking yourself.... - "Now, how much is all that going to cost me???" Well, all that will be yours for only \$1.99 . Tags: plr
