ELECTRONIC: Techno, ELECTRONIC: Ambient Details: If beauty and brains are a dime a dozen today, ABBYINTERNATIONAL is the dollar. Born in Illinois, U.S.A., early sacrifices for her music were well worth it, to become a Solo Artist. Using her avant garde personality to create her own path in the music industry, ABBYINTERNATIONAL remains comfortable as an independent artist. In 2005, ABBYINTERNATIONAL began laying a foundation in her favorite genres since childhood- Rock and Electronica. She recorded her first demo track "Get Up and Dance" in 2006 which received international praise with successes. Her experiences with Euro nightlife and its' music scene created her foundation in Techno and Trance music, inspiring her to become an Electronica Artist. Delaying her permanent return to Europe until 2007, ABBYINTERNATIONAL began composing and recording music for what was known as the "Beautification of The Beat" Demo Project. After showcasing her talent with "Life", "Last Rendezvous" and "One -ness", ABBYINTERNATIONAL returns with a new blend of Electronic melodies. Choosing tracks from the "Beautification of the Beat" Demo Project, she independently releases them into a series of Albums. The collection of musical works found in Volume One of the "Beautification of the Beat" Album provide a creative listening and dance experience for the Electronica lover. She brings classic beats and poetry to her emotion driven dance music, resonating a smooth rawness found in the depths of Electronica. Exploring beats and melodies with her "rap/speak" style alternative vocals, she experiments to create a smooth unique blend of Experimental and Techno music. Embracing minor keys, she maintains a dark mysterious ambiance within up-tempo beats. With her idea of "musical integration",

she creates her own style of music to push the artistic envelope. Reflected by an ever growing international fan base, she is a rising star in the Electronica genre.
