Stevie Ray Vaughn meets Jimi Hendrix with killer horns. 11 MP3 Songs BLUES: Rockin' Blues, BLUES: Texas Style Details: The Alan Payette Band (APB) The Alan Payette Band is the seven-piece powerhouse out of Albany, New York that knows exactly how to get a crowd up and a party started. With A unique sound, APB embodies the best elements of musical acts from time gone by- with the focus on the music. Far from merely getting by with just a flashy show onstage, this band pulls all the ingredients together- the tightest rhythm section around, a high-octane horn section, and the energy to go all night with amazing original music and the best rockin' dance tunes anywhere. The Alan Payette Band personifies that which the crowd loves most: raw talent, electrifying stage presence and a sheer love of entertaining all who walk through the door. APB knows exactly what buttons to push to create a party, and keep a crowd on it's feet through the classic music of the 60's, 70's, 80's, 90's and today, with original muci that will assuredly suprise even the most venerable music critic. It's that unique aspect of the band- the infectiousness of APB's original compositions that draw people back to the integrity of the music. Not simply a "cover band", APB creates music and refines the timeless music audiences love. That belief has made the band what it is today: one of the most talked about groups around, and the most electrifying band in the northeast.
