

Mp3 Atiquis - Jazz: Acid Jazz

[DOWNLOAD HERE](#)

Often the musical equivalent of a switch blade fight (remove images of Broadway interpretations), Atiquis takes the ingredients of a jazz quintet and infuses it with a drive, daring, and energy often unseen. 7 MP3 Songs JAZZ: Acid Jazz, ROCK: Punk Details: atiquis represents five disaffected young men who each found themselves engaged in a switchblade confrontation on a cold Brooklyn night. Although they won't talk openly of the events that transpired over a year ago on that evening, they have formed a jazz-punk musical unit to help cope with the memories. Each song twists between manic rage and sentimental regret, carrying an improvisational bent as focused and dangerous as the very night they met. Atiquis has performed all over the New York area, turning out the whinos, hipsters, hippies, artists, salesmen, and jazzers at venues like CB's, The Knitting Factory, Kavehaz, Stain, and more. With comparisons to Dave Holland, Ben Allison, MMW, The Bad Plus, or Happy Apple, Atiquis insists, there's something different here. Keep your ears open for their 2-horned, guitar-bass-drum cacophony, and your eyes alert for glimmers of steel blades in your periphery.
