

## Mp3 Better Chemistry - Undiscovered Elements

[DOWNLOAD HERE](#)

Rock and Reggae combo style with a hint of funk, with or without the kegger, is great party music. 12 MP3 Songs ROCK: Jam-band, WORLD: Reggae Details: Better Chemistry is a group of friends and musicians from the foothills of Los Angeles, performing original Rock, Reggae, Ska, Funk and Blues. Their recent endeavors have led them to numerous Southern California musical festivals and some of the best venues in Hollywood. Better Chemistry has been compared to Sublime, Phish, Grateful Dead, and Bob Marley and considered up and coming musical act in the L.A. area. The six piece act delivers a great night of entertainment for young and old alike as their musicianship can be electrifying. The band has an uncanny ability of capturing an audience from ages 15-50. You will be able to hear the influence of the 60's style rock and roots style reggae. The band delivers a positive message of peace and good living through music while relating the strain of everyday work and life. Better Chemistry also performs a vast array of Reggae and Rock classics for the audience. Members include: Dave Monaco lead vocals and rhythm guitar Ed Collins- drums and background vocals Ray Green- lead guitar Chad Junkin- keyboards and background vocals Rene Casas- bass guitar ERIC DJ Wood Woodruff- turntables, percussion and background vocals Booking Information: Arsenal Productions (909) 263-2185 Contact Email: info@betterchemistry.net Website: betterchemistry Accomplishments since inception (Dec.2001): Debut release, Undiscovered Elements featuring 12 original tracks May 2002 Radio Airplay: WOJB, Wisconsin / KSPC, Claremont, CA. / KVGs, WA.
