Hailing from the colonial confines of Toronto, Chris has been on the indie scene since the 80's makin' music to move your feet heart and soul! This new CD expands on the '94 release "BRAINFUDGE" musically and lyrically but is a more personal record dealing with the universal themes of brotherhood, love, hope and betrayal. From the joyfull reggae of "Belize City Bakin'", the brotherfunk of "Full Circle", the tropical "Floating and Drifting" to the popish "Hanging to the Riverbank" and love-torn "My Heart Beating" this record delivers on all levels to get your groove movin' and your soul shinin' and propels you further with the djembe/electronica/world driven "African Head Dub" and "Brazilian Thunder Throb". Three years in the making, "Knotty Bits" features well known Toronto horn players Rich Underhill and Bryden Baird as well as keyboard maestro Jono Grant. Three drummers (Dean Stone/Mike Goodridge/Davide Lorenzo) rounds out the lineup. Chris is currently gearing up for his release shows/summer festivals and general musical mayhem!
