Eclectic collection of songs from acoustic Celtic style folk to "full band" rock and progressive rock. 15 MP3 Songs FOLK: Modern Folk, ROCK: Progressive Rock Details: This album defies easy classification. I have been strongly influenced in my songwriting and guitar playing by Celtic styles, particularly the use of open tunings, as well as the progressive rock styles of Jethro Tull and other progressive bands of the 60's and 70's-mixing the acoustic with the electric guitar. The songs are all original and utilize, in particular, the acoustic guitar, mandolin and electric guitar and bass to achieve a varied dynamic.
