

Mp3 Gene Pool, B.c. - Drown

[DOWNLOAD HERE](#)

Blue Collar Rock is back and this time it's the Gene Pool, B.C. that leads the way. Join us, the water is fine. 10 MP3 Songs ROCK: Modern Rock, ROCK: Progressive Rock Details: Gene Pool, B.C. is based in Jacksonville Florida and has spent the last year creating their debut CD entitled "Drown". Gene Easters fronts the band (Vocals/Guitar) with fellow bandmates Keith Brown (Bass) and Doug Law (Drums) backing him up. The band, known for its Friday Night Jam Sessions at Easter Island Recording Studios, shape their music in its simplest rock form. With raw, unadulterated, energy, Gene Pool, B.C. will take you from one place to another and will make you want more. After your first encounter with this modern straight-forward rock trio, you will be asking yourself, "What did I just hear?". After your second taste, which will more than likely be after the last song, G.P./B.C. will have you in their grasps to the point of quoting lyrics and singing chorus lines. Right from the first track entitled "Stand", this two and a half minute song gets you in the mood for your 40 minute journey through a mix of Pop songs such as "I", "Blaze", and "I'll Be Gone" to the Black Sabbath-esque "EZ-2" and the pure energy driven "Grind The Gears". "Grind" also includes a harmonica intro which takes you to a place such as a Civil War Camp or an empty freight car on a classic steam powered locomotive. The most unique experience you will have while listening to this record is that each song has its own personality unlike most of the modern rock/pop music of today which all sounds the same. If you are one who enjoys something different and is tired of the way modern rock music has turned, I suggest getting this album and give it a listen or two. You may be glad you did. The reviews of the live shows are pouring in! If you haven't checked out The Gene Pool, B.C. live...you should. Now that they have started taking over the Jacksonville area, people are starting to recognize. Here are a couple of reviews from the last 2 shows- "We want you back as soon as possible! We sold the most beer and the made the most money in a year and a half!" Steve at Yesterdays

Jacksonville, FL "....we had over 100 people through the door. When can you guys come back?" Doug at The 121 Club MacLenney, FL Click on our website link to the left for pictures and more reviews. April 19, 2005- Update The Gene Pool B.C. are back in the studio to record their sophomore album!! Being on the inside I can tell you that the drum tracks are finished and the band is once again putting the pedal down and driving full force. I will be updating this frequently so check back soon and also check out the band website at [thegenepoolmusicfor](#) pictures of the band in the studio and for tour dates. Also I would like to send out a huge thanks to all of our fans who have supported us over the past year during the release time of DROWN. We appreciate it!!
