Modern experimental techno sound. Unique vocals. WHMC, South Hadley, MA Heather Baker has produced a unique CD of musical sounds textures that takes the listener on a ride to what seems like other worlds, far far away. Like Dorothy's Emerald City, Heather Baker's world is where ever we want it to be, in a dreamy land far beyond our daily lives or up close and personal, touching us deeply inside. The synthesized sound scapes are the perfect vehicle for her haunting vocals and lyrics, refreshingly honest, they portray the emotional complexities of real life. There are no easy answers here, in fact there are no answers at all. Heather's musical journey is one that you must hear to fully understand. Very Pretty Voice. What a picture! KCFV, St. Louis, MO As good as the best goth releases out now! WSHL, North Easton, MA I like Heather's voice. Definitely a unique sound! WDCE, Richmond, VA
