"Jonathan Auerbach's new album, LAUNCH, Meets All Roots Rock Criteria... Strong rock rhythms presented in their raw state. Musical and vocal hooks that catch the ear and the mind. "Distant Drumming" has got all the pieces here -- strong beat that makes me tap my feet, the repeated musical

and vocal hook line is very catchy. Best is that the lyrics are just a bit mysterious and interesting. I'm also partial to "The Heart is Long," one of several songs that Auerbach uses to examine the ups and downs of relationships, along with "Lucky Stars" and "The Circle." One of those albums that grows on you little by little. Well worth checking out."
