

Mp3 Ken Lovern's Ojt - Jazz: Acid Jazz

[DOWNLOAD HERE](#)

Organ Jazz 13 MP3 Songs JAZZ: Acid Jazz, JAZZ: Traditional Jazz Combo Details: Keyboard Magazine May 2006 UNSIGNED ARTIST OF THE MONTH For many keyboardists, there's nothing more satisfying to hear than a B-3 beautifully played. Ken Lovern's Organ Jazz Trio is a wholly satisfying disc for just that reason. Though its clear that Ken has a solid groove, creative sense of melody, and the chops to make it all sing, one if the real highlights here is his mastery of the drawbars; the OJTs organ tone changes constantly and fluidly within the framework of a song or solo, adding an unexpected layer of expressiveness to Kens playing. Original tracks like OJT Theme and Swirlies show a good deal of compositional maturity as well, and the groups cover of Michael Jacksons Billie Jean is surprisingly cool, funky, and sophisticated.
