

Mp3 Skollar Rock - Seeds Of Life

[DOWNLOAD HERE](#)

Bangin. 18 MP3 Songs GOSPEL: Contemporary Gospel, HIP HOP/RAP: Spiritual Rap Details: I was first introduced to music at the age of 9, and have been touched by it since. I began by writing songs to House music, which was a popular form of music, back in 84, in Chicago. I won many a battle throughout my high school years at Steinmetz, where I picked up my hip-hop diploma. I learned the art of rap through my senior year English Teacher, Mrs. Perry (Much love, RIP). She taught me the truth about alliteration, personification, metaphors, and the likes. Throughout the years it was a struggle to maintain, all since I have been given the label as being the family strongman. I am married and "Ready for Action" which was the title of the first set of lyrics that I wrote back in my youth. That was my past. I have endured many things that enable me to reach a wide range of people in my ministry. Skollar Rock is one of the founding members of Burn Unit Inc Ministries and is the current CEO of BUI Records. He is also the founder of True Foundation Association, which is an outreach, stemming from his stay at Emmanuel Christian Center. He also has his own Consulting Company and up and coming gospel artist Management Company called Angle Point Music. Skollar Rock was born in Chicago and is a veteran of the United States Navy. He is also an ordained minister, and is also married to the pastor's daughter. Being in the ministry, he stays focused by remembering his great commission found in Mark 16:15 "Go ye therefore into all the world and preach the gospel".
