

# Husqvarna Viking Opal 650 670 Sewing Machine Service Manual

## Content

|                                                                                                       |    |
|-------------------------------------------------------------------------------------------------------|----|
| Directions for use .....                                                                              | 4  |
| Service tools .....                                                                                   | 5  |
| Settings .....                                                                                        | 6  |
| Settings - Quick reference .....                                                                      | 7  |
| 1. Belt tension -drive belt .....                                                                     | 10 |
| 2. Belt tension -motor belt .....                                                                     | 10 |
| 3. The play of the hook gear .....                                                                    | 11 |
| 4. Setting the hook in relation to the feeding eccentric (After feeding) .....                        | 12 |
| 5. The gap between the needle and the hook .....                                                      | 13 |
| 6. Setting the needle plate (the hook cover) in relation to the needle in the feeding direction ..... | 14 |
| 7. Setting the feed dog in relation to the needle plate .....                                         | 15 |
| 8. The height of the hook .....                                                                       | 16 |
| 9. Feed dog height .....                                                                              | 17 |
| 10. Setting the needle in centre position .....                                                       | 18 |
| 11. The needle bar height .....                                                                       | 20 |
| 12. The timing of the hook in relation to the needle .....                                            | 21 |
| 13. Needle threader stop .....                                                                        | 22 |
| 14. Threading device .....                                                                            | 23 |
| 15. Presser foot parallelism to the feed dog .....                                                    | 24 |
| 16. Presser foot height to the needle plate .....                                                     | 24 |
| 17. Stitch length balance basic setting .....                                                         | 25 |
| 18. Stitch length balance .....                                                                       | 26 |
| 19. Lower thread tension (thread tension of the bobbin case) .....                                    | 27 |
| 20. Thread tension releaser 650 .....                                                                 | 28 |
| 21. Upper thread tension 650 .....                                                                    | 29 |
| 22. Upper thread tension 670 - Start tension -1 .....                                                 | 30 |
| 23. Upper thread tension 670 - Low tension .....                                                      | 31 |
| 24. Upper thread tension 670 - High Tension .....                                                     | 32 |
| 25. Upper thread tension 670 - Extra High Tension .....                                               | 33 |
| 26. Setting the thread take-up spring .....                                                           | 34 |
| 27. Disconnection when winding the bobbin .....                                                       | 35 |
| <br>                                                                                                  |    |
| Service program Opal 650 .....                                                                        | 36 |
| Functions of the service menu 1 - Step motors .....                                                   | 37 |
| Functions of the service menu 2 - Display and Sensor .....                                            | 38 |
| Functions of the service menu 3 - Test patterns .....                                                 | 41 |
| Functions of the service menu 5 - Key Board Test .....                                                | 43 |
| <br>                                                                                                  |    |
| Service program Opal 670 .....                                                                        | 44 |
| Functions of the service menu 1 - Needle Stepper motor .....                                          | 45 |
| Functions of the service menu 2 - Feed/Cut Steppermotor .....                                         | 46 |
| Functions of the service menu 3 - Reset & Display test .....                                          | 47 |
| Functions of the service menu 4 - Sensors 1 .....                                                     | 48 |
| Functions of the service menu 5 - Sensors 2, info .....                                               | 49 |
| Functions of the service menu 6 - Testpatterns .....                                                  | 50 |
| Functions of the service menu 7 - Default tension settings .....                                      | 51 |
| Functions of the service menu 8 - Keyboard test .....                                                 | 52 |
| <br>                                                                                                  |    |
| Front Lid .....                                                                                       | 53 |
| Rear cover .....                                                                                      | 53 |
| Front cover .....                                                                                     | 54 |
| Base Plate .....                                                                                      | 55 |
