

## Mp3 Alfonso Espriella - Trazos De Ser

[DOWNLOAD HERE](#)

Latin-alternative, rock/pop. Beautiful, emotional, smart lyrics with deep messages. Very creative and original musical arrangements. 12 MP3 Songs LATIN: Rock en Espanol, ROCK: Modern Rock Details: ABOUT ALFONSO Alfonso was born in 1978 in Bogot, Colombia, to musician parents. He started writing his own music at an early age; a piano piece when he was 8 and songs with lyrics when he was 12. Alfonso studied at the Berklee College of Music in Boston, MA, school from which he graduated with a degree in Music Therapy. He then moved to San Diego, CA, where he started working as a music therapist with different kinds of populations. At the same time, he was very active as a musician, constantly performing and recording in the area of southern California, mainly San Diego and Los Angeles. ABOUT THE ALBUM TRAZOS DE SER (traces of Being) is Alfonso's first full-length album. It contains 12 original compositions, most of which are in Spanish (a few are in English). All the writing, arranging and producing was done by Alfonso. The recording and mixing were done by Alan Sanderson (Elton John, Rolling Stones, Weezer, Fiona Apple, Elvis Costello) at Strate Sound Studios in San Diego. In this album one hears the traditional instruments of a rock band (drums, bass, guitars), plus piano, string sections (cello, viola, violins), electronic programming, percussion, and several layers of vocals. About 20 different musicians have contributed to this work. The music in this album reflects a deep sensitivity towards life. Lyrics tend to involve self reflection and insights arising out of introspection, and are frequently experienced by listeners as gentle, yet powerful invitations into themselves. With his music Alfonso presents a possibility for people to tap into a level of experience, a level of feeling and connection that is not frequently experienced in our mechanic, fast passed day to day life. The songs tend to be very melodic, atmospheric, and powerful in their ability to express deep feeling. On listening to the whole album, one travels through moments of sweet calmness, into moments of more intense releases of

energy, visiting a big array of moods and emotions. Along this journey, the listener is accompanied, through the words, by messages of love, of spiritual and existential curiosity, of navigating through pain, of hope and of freedom, all of which arise out of Alfonsos life experiences and his strong desire to live life in a fuller, deeper and more authentic way. I hope that you enjoy this work!
