Details: I am Corey Rubin, entertainer, teacher, and recording artist with an abundance of talent and professionalism to share. My roots with music stretch back 25 years since I picked up my first guitar. My love and addiction for this industry have turned this into my sole means of support. Teaching for over 21 years has created a wonderful outlet to share with others what I hold dear to my heart. Currently my first CD release entitled Through Me, is an acoustic journey with enlightening lyrics that have been composed by me. I perform regularly as a solo performer playing a huge variety of music including originals and covers. My professional status is known for my humorous but non vulgar demeanor, timeliness and a nice presentation of style. It matters not whether it be a black tie affair or a simple impromptu gathering. My goals are single minded, to write and perform songs for the majority of the audience to understand and enjoy, market my music and continue to grow with performing and recording, and of course, to continue to nurture my students. Enjoy the music!!!
