New age piano music that often borders on the worlds of folk, jazz and classical in expressive, highly personal compositions and performances. 15 MP3 Songs NEW AGE: New Age, CLASSICAL: New Age  
Details: As with his previous album, "Life Song in Progress", Ben's new CD, "Waking . . .", is filled with a mix of deep emotions, expertly expressed in a style somewhere near new age and jazz, but with more feeling than either of those venues are used to. This new and different CD, just completed, has some of the pieces "sweetened" by Bob Winters on sax, and a few "punched" by Paula Walsh on drums. Enjoy.
