A tasty fusion of rock, jazz, folk/world with a little mystery and fantasy blended in 8 MP3 Songs ROCK: Americana, WORLD: World Fusion Details: Some new members lending their talents to our little project and the final result is something we are really proud of. Already getting some stellar reviews; ' Dreams That Rhyme ' by Going Some Place....has just graced my ears with lyrical depth and other-worldish melodies that blend perfectly with the exotic polish of the background music and the angelic harmonies . From first note to last this work of art drew me in and refused to let go . Highly recommended with 5 *****'s is my review . Eddie Russell Outlaw For Peace Radio
