" Total Production Magazine "We discovered this album and Sunday morning chillin' hasn't been the same since. " Out In London "Jane is a gifted songwriter and emotionally charged vocalist" Female Songwriter Just over a year ago, Jane was a housewife and mother of three who just happened to write great songs. She'd given up on any musical dreams for over a decade whilst she raised a family. But in 2002, Jane discovered she had a fan base on the Internet - so she took out a bank loan to pay for some studio time, dusted down her guitar and recorded an album of songs she'd written over the last ten years. This album was CLOSE UP AND REAL which has now received staggeringly good reviews and sold over 2000 copies. Tracks have also ben featured in a film about the late R&B singer Aaliyah. SEEDLING is Jane's second album and was written and recorded during a particularly difficult time in her life. Sometimes dark and reflective, often upbeat and feather light, the songs vary in style and range from full on country rock to Dido-esque pop and Norah Jones style cocktail lounge grooves. SEEDLING is a mature and intelligent collection of tracks all penned by Jane which firmly establishes her as a songwriter to take seriously. SEEDLING features some of the very best musicians in the UK including players from Lenny Kravitz and Vanessa Paradise amongst others and

the songs beautifully demonstrate Jane's versatility as a writer, vocalist and arranger.
