Mp3 Outlier - Blues: Rockin' Blues

DOWNLOAD HERE

Acid/Blues,Rock and heavy guitar laden tunes. Ballads filled with heart,unique songs driven by their lyrics, vocals,creative writing and fluid guitar work. 12 MP3 Songs BLUES: Rockin' Blues, ROCK: Psychedelic Details: OUTLIER reached critical acclaim in Columbus Ohio the so called "test market capital of the United States." In a town where 99 of the bands are cover bands...OUTLIER wrote and recorded their own tunes and had live crowds crying out the titles of their favorite songs off this their premiere release and self titled CD. Club owners were so impressed they quickly agreed to put the CD on their Jukeboxes which lent even more fuel to the OUTLIER fire! The group became so popular they were quickly torn between playing live shows and doing studio work. For two years they split the difference and thus their music reflects the excitement of a live performance and the polish of studio work. Led by guitar star Matt "the cat on the strat" Mollica, and Mike Tonn from Detroit Michigan on vocals (and Les Paul guitar) they formed a unique and hard driving sound that has been described as a cross between Creed, Nickelback and Kenny Wayne Shepherd! Unless you've heard it for yourself you would not believe the haunting melodies, prodigeous guitar riffs and cascading power chords that make OUTLIER's sound so unique. Rounding out the group is Jeremy Wooldridge, a real heavy on the bass, and Jim Jackson on drums. Tonn's voice is thick and full and he sings with heart and grit about love and life in a way that reaches some part of you that doesn't have a name. The two guitarists work perfectly together, Tonn's chorus/flange fingerpicking and Mollica's killer tones, soulful searing solos and lightning fast fingers are a joy to all fans of great guitar work. If you like heavy rock, acid rock, heavy blues or power ballads you will love OUTLIER's music. People who own this CD will not let it out of their reach and everyone who has ever seen them play has said, "These guys are going to make it big."
