Silencing audiences awaiting the next punchline or metaphor, this harmony-oriented quirky couple are as much gifted writers as they are composers. 5 MP3 Songs FOLK: Folk Pop, POP: Quirky Details: This Memphis based duo consists of Misti "Rae" Warren Davy "Ray" Bennett. Every line is a punch-line, which is exactly what has their audiences silenced in their historical Memphis venues. But don't write them off as a 4 chord strummin' novelty act. They are as much gifted writers as they are composers. There is some serious ground covered here, w/Davy Ray's boundary breaking classical guitar influence and both of their truly unique sense of humor and metaphor. They are strongly influenced by Asylum Street Spankers, Tom Waits, Squirrel Nut Zippers, The Beatles, Joni Mitchell, Billy Joel, and lots of classical artists. Sometimes tongue in cheek, sometimes in your face, you gotta give these 5 songs a listen. They're presently in the studio cutting a full-length cd that they will also put out on vinyl. Be inspired, have a laugh, a cry, and some food for thought while you listen to the geniusly crafted insanely witty compositions of the pride of Memphis, Rae-Ray.
