

Mp3 Red Smiley - Sings Country

[DOWNLOAD HERE](#)

The late bluegrass legend Red Smiley Sings Country from 1968 with Top Nashville Session Players including Jeff Newman DJ Fontana. 10 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Bluegrass Details: Sound Stop Music Presents RED SMILEY / SINGS COUNTRY Sound Stop -007 The late great RED SMILEY is well known in the Bluegrass field for the contributions from the Don Reno Red Smiley fame. This recording was made in 1968 after Red had retired from touring. It is NOT Bluegrass! Instead, it is strickly COUNTRY with some of Nashvilles top session players of that time including Jeff Newman/Pedal Steel, D.J. Fontana/Drums (played for Elvis) and Wade Phillips/Electric Lead Guitar. All of the songs here had never been recorded and the album was never released. Only a 45rpm of "Best Female Actress of the Year". Then later Charlie Moore recorded a bluegrass version of the song. None of the the others have ever been recorded or even heard by anyone else. So, in 2005 Producer/Promoter Buddy Hogan went to Waynesboro, VA to meet with John Major. And this is what wound up from that meeting. David Cannaday Sound Stop Music "If you like Traditional Country, the singing and picking on this CD is TOP NOTCH!" Marty Stuart "...in just a few short years he created a lifetime of songs and material that will last forever in the world of entertainment and will stand the test of time for all to enjoy. He left us with something more valuable than money, he left us his heart." Ronnie Reno Blue Highways TV " I grew up watching Reno and Smiley on TV, and could not imagine Red singing country. Puzzled, I listened to this recording featuring the legendary bluegrass musician Red Smiley, WOW! Red Smiley could have made it as a big time country artist too! Listen to this CD and Im sure youll agree, that Red Smileys talent was, and is, TIMELESS." Tim White VW Boys / AM640 WGOC WEBSITE: soundstopmusic.com E-MAIL: Soundstopmusic@aol.com
