Traditional country music written with the early Cowboy lifestyle and love ballads that deal with the everyday life we all know. 10 MP3 Songs COUNTRY: Bluegrass, COUNTRY: Traditional Country Details: Since I was a young boy, I was always humming, singing or whistling a tune, seemed like twenty four hours a day. My interest in music has been there as long as I can remember and a few years ago decided to finally do something with my music. I wrote all my songs and enjoy writing. I drove trucks for thirty years and I am always seeing or hearing something that I jot down for song titles. When I get home, I sit down and put it to music. I have done thirty minute features on Nashville On Stage, Music City Revue and done a TV taping for PBS which will are four times over the next year. I have an infomercial on the internet that will run aor the next year around the world and recorded my album with KMA Records in Nashville. I do shows in my surrounding area and hope to be real busy with it next summer. I hope to reach a lot of people through MP3 and bring my music to those who enjoy my style.
