Funky grooves, lush keyboard sounds, smokin' guitars are just a few of the features of this CD- eclectic electric jazz with a few fun retro touches in there (like a wah-wah pedal, and 70's/Shaft rhythm guitar.)-enjoy. 10 MP3 Songs JAZZ: Weird Jazz, JAZZ: Acid Jazz Details: SAM CRAIN is a jazz guitarist and composer from Springfield, Illinois, with 13 other CDs to his credit-all available here on CD Baby. His playing has a strong bebop streak, but also contains elements of R B and other styles, with a lyrical edge all his own- imagine perhaps George-Benson-meets-Robert-Cray, or along that line.. "In Your Dreams" is a gumbo of smooth jazz, Latin funky grooves, down-home blues and other elements, with a few solo guitar pieces sprinkled in for good measure. Different textures and sounds are explored here in the keyboards and guitars, some spacey and 'dreamy', some more intense. All original music, and all performed, recorded and mixed by its composer. One of the selections on this CD, called "Oompa Doompa", is featured on a compilation CD put out by SW Records, from Sacramento CA, to be distributed to colleges and radio stations throughout the US. "In Your Dreams" is also available through E-Music and Audio Lunchbox. It's enjoyed a few sales here on CD Baby, and most recently, a nice review. For more info, please visit my website.
