

Mp3 Techno Joe - It's A Miracle

[DOWNLOAD HERE](#)

Singer/songwriter/musician, takes you on a musical experience of his life which spans 30 years in the music business. His thought-provoking lyrics, and melodic rhythms and riffs offer the listener a variety of styles. 10 MP3 Songs EASY LISTENING: Soft Rock, ROCK: Classic Rock Details: "Techno JOE" is the brainchild of a prolific songwriter; a one-man-band of sorts. From the first cut to the last of this "first" CD album offering from "TJ", we listen as he [a college-trained Artist] portrays "portraits of sound", and "molds lyrics like clay" into masterpieces of music for all to hear and enjoy! He hopes you will truly enjoy this CD, and welcomes your "comments" and "constructive criticisms". [He loves his craft but feels there is always "room for improvement at all levels"!] He also wishes to "THANK" CDBABY.COM for this "privilege" to "share" his songs with the world! "TJ's" first cut...."It's A Miracle"...Truly fits here as the title of his CD, as it IS truly a "miracle" in that after many years as a writer, musician, and performer who has always been searching for that illusive "good deal" or "first big break", but more often than not winding up on the receiving end of a closed or slamming door.....That it should finally come to pass that FATE would lend a helping hand to make this "lifelong dream" become a reality! The lyrics describe the trials and tribulations of love lost and found, and both the pain and heartache; joys and sorrows that accompany such a search for fulfillment! Although the lyrics might bring a tear to your eye, in "contrast" the music is upbeat and danceable! The second cut..."I Couldn't Ever Say Good-bye" picks up the tempo, as we deal with the separation of two people in love. Regardless of what the "weather" is doing outside, and the "distance" between lovers...True-love knows no boundaries! The fairytale-like suggestion that the title brings to mind, as if to say that "never saying Good-bye" means never having to let go...or perhaps it's love's secret potion that assures your lover will always return? The fourth cut available here for you to listen to...Is more of a modern rocker! With the steady, upbeat drums; to the riff-laden,

complimenting, twin-lead guitars with an over-abundance of distortion...This song shows a revealing look into the "corporate world" of big business! Where young execs experience the "rise and fall"; "success and failure" in an ever-changing, always-challenging world of suits, ties, and brief- cases, while people work in a maze of computerized, cubicle offices under the watchful eye of higher-ups!... In the lyrics we hear of one such young exec who has done his "homework"....He's checked and double- checked his "statistics and done his arithmetic"...While the stress is even making his "butterflies sick". In his mind he sees his superiors, and their "second" in command...as "clowns and jesters" on the "right and left" of the boardroom as he tries to make his presentation to WOW them, and gain another "step UP" on that 'corporate ladder'...As the name suggests...."Every Dog Has It's Day". The "sixth cut" is a similar theme to Track #2 ["I Couldn't Ever Say Good-bye"] although this time around the "mood" is more somber and sorrowful, and might even bring a tear to the listener's eye, as we listen to the "angst" of loves' pain of separation in...."Cryin' Game". As "TJ" says..."There is something for everyone" in this CD! We give this first CD offering a rating of FOUR STARS! We hope you will listen with an open mind and ear! ENJOY!
