Easy to listen to quality music, produced and performed by a versatile multi-instrumentalist, who's primary instrument is electric guitar in a jazz-rock sort of vibe. 12 MP3 Songs JAZZ: Jazz Fusion, JAZZ: World Fusion Details: Tom has been playing the guitar since age 8 and has been inspired by guitarists covering almost all genres. He has played in progressive rock, classic rock, blues-rock bands, and even at one point, a Calypso band. He has toured before, mainly in the midwest and mid-Atlantic states. He considers himself versatile, but not suited for a variety band due to his close affinity to creativity and expressiveness. He believes that if you can't express yourself with your instrument, then you can't have fun, and if you can't have fun, then there is no value added to the experience. In addition to playing guitar, Tom plays drums, bass guitar, and keyboards. His technical ability to understand the science of digital music and his detail-oriented ability to produce was meticulously developed during the set-up and usage of his digital studio. He sincerely hopes that you enjoy his CDs as much as he has enjoyed providing them.
