A contemporary ode to tiny gum. 1 MP3 Songs in this album (3:51) ! Related styles: URBAN/R&B: R&B Rap mix, SPOKEN WORD: Musical Comedy People who are interested in Ludacris T.I. T-Pain should consider this download. Details: "There ain't no better time to rock it..." Most of us take our gum-chewing pretty lightly, but not Mr. Adam Payne. An avid 'Chiclettier' since early on in life, Payne developed a unique way to conserve his precious hard shells while also not weighing down his pants. "Suckas carry too much junk in their pants pockets...I'm trying to save space!" And save space he does. Payne's method of popping off two (or three) chiclets, and placing them in the right-hand button-pocket of his pants means having gum right where he needs it at all times. "I used to buy the big packs of gum, you know, with the sticks and such...it just got too cumbersome! Now I rock the [chics] and it ain't nothin! Can't stop, won't stop the chew..for life!" "My dime, my shine, and it's only for me..." Another benefit to this method is that one does not have to risk pulling out the pack of gum in public and being forced to share it with whoever is around. The 'Chiclets in my Pocket' method is discrete, and might also deter others from asking all-together. So enjoy this lyrical ode to tiny gum, and think about incorporating Payne's methods into your routine. You just might rock it as well!
