A perfect blend of metal, industrial, and noise. Each song has a personality of it's own that ranges from frantic brutal aggression to somber reflective melodies and everything in between and beyond. 15 MP3 Songs METAL: Industrial Metal, METAL: Heavy Metal Details: Decay Of Value was formed in 2001 and currently resides in Northwest Ohio. The band consists of Nathan Harshman on guitars, vocals, and programming and Michael Wheeler on bass, vocals and programming. Armed with our influences and a desire to create something from nothing, we started recording and assembling our noise. Our first (and self titled) cd was released in October of 2003. Lacking the personnel and equipment to properly present Decay Of Value to a live audience, we went straight to work on our second album. "Ramblings Of Incoherent Minds" was the result and was released in December of 2004. Currently we are gearing towards making live Decay Of Value a reality and fully intend to pay our dues on the road. Thank you for taking the time to check out our music. If you like what you hear and would like to support independent artists please consider buying a copy of one of our cd's!
