Intelligent pop/rock music with a story in every lyric, blended with melodic guitar and fresh rhythms. 10 MP3 Songs POP: Today's Top 40, ROCK: Modern Rock Details: Box of Whispers is a compilation of music by Greg Deering. Written, recorded and produced in a Digital studio located in my home. After 30 years of producing and recording musicians and bands I have decided to release my own works. All instruments on this CD were played or programmed by my self. The only exclusion to this would be my wife Tamra, who made me beg to use her voice on the track "You Say."
