Related styles: EASY LISTENING: Instrumental Pop, ELECTRONIC: Ambient People who are interested in Supertramp James Last should consider this download. Details: "Ian Ravens music evokes a celebratory mood. His album Vagabondages begins with an expressive piano solo. Then the music becomes more energetic and plunges you into a sequence of changeable feelings. I would characterize Ian Ravens album as a journey into the world of human emotions. His music is adequately simple yet very diverse. Also, one could say that Ian Ravens music is beautifully composed and well-structured. And his music is very European by its spirit. Sometimes it carries the listener to the far away eighties or even seventies. Ian Ravens album is like a perfect soundtrack for an exciting movie. It could be a love story between an American girl and European man, or it could be a story of an old man telling about his long life or it could be something else But in any case it would be a dramatic movie because Ian Ravens music is strong and very rich. As you listen to his album you can sense all nuances of various feelings. Vagabondages CD will be interesting for all instrumental musics lovers. Serge Kozlovsky sergekozlovsky.com
