"Speaking of her voice, some might compare Curtis' to pop star Jewel with all its sultriness and lightly peppered gusto. In reality, it's the other way around - Curtis is much more woman than Jewel." David Espinoza, Metro Santa Cruz, April 19-26, 2000 12 MP3 Songs FOLK: like Joni, BLUES: Jazzy Blues Details: "Fantastic songs, good musicians, and most of all, a brilliant voice." Dirk Stursberg, Radio 98.6, Berlin, Germany "I received your album this morning and just finished listening to it all in one shot. You did a great job on the album (as opposed to a few songs and filler.) It comes across as very successfully done as a whole. I'll air this next Saturday night on my station and probably play cuts 1-4 the first week. I want the listeners to hear the ideas and feelings as you planned them on the album. It feels good. Let me know when your next one is released." Jack "Sandman" Garrison, WFIT FM, Melbourne, FLA Be sure to check out Jayme's latest CD, Sugar Sand. Click the link at left to see why critics are raving!
