Collection of eclectic electronic music ranging from dance to R&B to classical. 15 MP3 Songs

ELECTRONIC: Electronica, ELECTRONIC: Ambient Details: Deonstrukt is a collection of new music and some previously unreleased material. The Range is from dance, techno to smooth jazz and ambient piano. "Kryptonik shows off a wide range of talent, constructing layer upon layer of nuance into a smooth, polished set of pieces. Their versatility shines as they range from danceable intelligent pop that rivals Boards of Canada, sliding effortlessly into off-beat Middle Eastern funk reminiscent of Sybarite or The Talking Heads circa "Remain in Light", then turning again to ethereal, smoky pieces that are as ambient as any Brian Eno creation. A compelling mixture of the familiar and fresh, it is going to get into your head and keep reprising itself long after the music has stopped. " R.G. People who are interested in Delerium Boards of Canada Brian Eno should consider this download.
