Melodic, alternative rock and roll with catchy sing-a-long hooks that stay in your head for days.. 7 MP3 Songs POP: Folky Pop, ROCK: Modern Rock Details: In 1996 Leper's Pen released "Another Perfect Day" on cassette. Now this release has been remastered and issued for the first time on CD. The new release features a new cover, new interior photos, as well as printed lyrics. Notes from Bill The Thrill: "I remember writing about 14 songs or so for these sessions back in 1995 and 1996. I wanted this cd to be upbeat and electric. I chose not to use any keyboards on this record and keep it a straight ahead rocker. Some of the tracks that didn't make the final cut included "Heal", "Hello, Marilyn", "Tough Times", "Your Love Is Cool", and "I Still Have My Dreams". These tracks can be found in the Leper's Pen "Rarities" series. I tried purposely to keep each release under 45 minutes. As a result, only seven tracks made this release." Here are some thoughts about each song on this release: CRUSH ME: I had the phrase "Crush me with your love" written down for quite some time. It was a playful expression I used to use with my girlfriend Jill. Sometimes a new love can come from out of nowhere and overwhelm you. HAPPENED TO BE THE ONE: This song is about finding someone who doesn't really fit into what you thought you were looking for, but turns out to be just what you needed. INTO YOUR ARMS: If you have ever been on vacation in a beautiful location without the one you love, you would know where this song is coming from. LION'S FRUIT: One day while driving around in my car, I read a sign that said "Fruit Of The Loom" and mistakenly thought I saw "Fruit Of The Lion". That title stuck with me until I finally wrote the song one day. It is about finding someone who is bold enough to take you on. Or put you in your place!! ANOTHER PERFECT DAY: This is a song about wanting to take away all the doubts that your spouse may be having about the relationship that you are in. HERE: It is about enjoying that very moment you feel you are "in love". FLAMBEAU RIVER BLUES: This is a song that I wrote for a bunch of my closest friends.

There comes a point in life when when life itself pulls friendships in different directions. This song is about missing the good ol' days and knowing there are moments in life that you can never return to. I had a great time making this record and as with all these releases, it marks a special point in time in my life. With each album I learn a little more about myself and about life. I always enjoy breaking new ground in the studio and future Leper's Pen releases will go on to show my wide range of influences. I hope you all will continue to follow this incredible journey.
