Smooth Instrumental Jazz Featuring the unmistakable warm Flugelhorn of Michael Fair 13 MP3 Songs
LATIN: Latin Jazz, URBAN/R&B: R&B Pop Crossover Details: The song writing duo of Smooth Jazz
Flugelhorn artist Michael Fair and multi Grammy nominated writer/producer Brandon Barnes once again
have come together to create their third project Back For More. This CD draws deep from the roots of
both writers combining the early influences on Michael of Herb Alpert's Latin two part harmonies from the
Tijuana Brass with Brandon's R&B and Urban influences from his days in Muscle Shoals and his hit
crafting with song writer/R&B artist partner Brian McKnight. The result is a long overdue original and
refreshing offering to the smooth jazz genre featuring the Flugelhorn. This CD is a collection of
compositions with a number of different feels which has culminated into a project with global appeal to a
cross-section of listeners. There are hip polished radio ready tunes Play It like You Mean It and Love
Goes On. Vocals spice up two of the songs, Its On You and You Got to Know giving these cuts the
Smooth Jazz Adult Contemporary treatment. "Viaje Elegante" offers up a mix between Latin and Funk
and there is the sensual and sultry Whats Her Name and the beautiful reflective ballad A Sad Goodbye.
This project even includes a first for Michael and Brandon, a waltz! The cut Waltz For Le Le has been
featured at Nashville weddings before it had even been released. Thirteen original songs comprise this
third project; twelve of the tunes composed by the song writing duo of Michael Fair and Brandon Barnes
and the afore mentioned tune Viaje Elegante composed by Michael Fair alone. All thirteen songs feature
melodies carried by Michael's trademark warm Flugelhorn with detailed background production creating a
real aural experience for the listener. Its a sure bet that anyone who purchases Back For More and
includes it in their listening rotation will most certainly be enticed to do just as the title suggest and
continue coming, Back For More! Enjoy!!
