With a love for hooks like the Cars and the rock sensibility of Cheap Trick, Weezer, and Fall Out Boy,

MSCF and their debut is ready for all audiences. 10 MP3 Songs POP: Power Pop, ROCK: Modern Rock

Details: My So-Called Friend began as a conversation, when Erik Carleton and Andrew Sgro decided to join together to write and make a record that reflected both of their loves: powerpop and song craft. They found producer Scott Riebling and a year and a half of studio time later, their painstaking attention to detail and revision has paid off. My So-Called Friend is born. The results have been staggering, as the band has already opened a sold out Paradise Rock Club, the Axis, CBGB's, and more. Only two weeks after the record was completed, even before it's official release, the band received interest from MTV. The debut album from MSCF is major-label ready, packed with hooks and singles that are waiting to be sung by audiences everywhere. And the boys in MSCF are just getting warmed up.
