modern guitar pop for smart people 11 MP3 Songs ROCK: Modern Rock, POP: with Electronic

Production Details: "It's not a stretch to classify "Musician" as a mini-masterpiece given that Fetters plays most of the instruments himself, taps into a deep Dylan-like muse for his songwriting, and produces the entire thing with a confidence that would make Rundgren proud." - D. Lockwood / Scripps Howard

8.12.05 "Wonderful. Accomplished, self-assured...it's as if Fetters has moved into his Sgt. Pepper period, with warm complex production, and plenty of dark characters with secrets." - Cincinnati Post 4.28.05

"Musician" is daring, as Fetters utilizes the studio to its fullest extent, the result a true "headphone experience"...Ultimately Fetters most engagingly challenging album, a refreshing, bold move from one of Cincinnati's finest songwriters ever." - CityBeat 5.4.05
