A fresh, modern sounding hymns CD. Uplifting recordings of your favorite hymns relevant to today's generation 11 MP3 Songs GOSPEL: Contemporary Gospel, POP: with Live-band Production Details: Michael W. Smith - "In my years as a recording artist I have the pleasure of working many, many wonderful people. There are few, however, that can match the incredible heart for ministry and the great talent of Sarah Macintosh. Sarah was an incredible addition to my band musically and her heart for kids was an incredible inspiration to all of us on the road. I am very excited about her new project and I give it my highest recommendation." Sarah started with a band called 'Chasing Furies', a cutting edge mix of angelic vocals and edgy guitars. She moved on to pursue her own passions and along way got on the "worship again" tour, singing backup and playing acoustic guitar for Michael W. Smith. This gave her a fresh vision for christian music leading her back to the roots of it all, "Hymns". Sarah's current release 'Then Sings My Soul' is a new perspective to the old hymns. Keeping traditional arrangements but adding her own voice, taking these songs to a new level that can be appreciated by young and old alike. Ranging from ethereal a cappella tracks, to the sweet bluegrass feel of 'Higher Ground', to the guitar driven version of 'How Great Thou Art', this cd will inspire and bring joy to your life. Sarah's love of music and people come across in her music, she captures incredible moments of artistry and integrity whether performing live or in the studio.
